DETAILED ACTION

Drawings

1. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the complementary display units (claim 11), the plural display panels (claim 12), the unit being integral with the carry basket (claim 20-24), and the display unit mounted on the side of the carry basket (claim 23) must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

2. The drawings were received on June 16, 2003. These drawings are not acceptable because they incorporate new matter. In Fig. 4, the depiction of the attachment being divided into two subsections (12a and 12b) is new matter. In Fig. 5, the depiction of both the flat and the angled displays being part of the same basket is new matter.

Specification

3. The substitute specification filed June 16, 2003 has not been entered because it does not conform to 37 CFR 1.125(b) and (c) because: it includes new matter. See the above objection to the proposed new drawings.

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Art Unit: 3611

2. Claims 20-22 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. These claims are directed toward mere ideas that are mentioned in passing in the Specification, but are never fleshed-out or described in specific embodiments.

3. Claims 23 and 24 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The recitation in claim 23 that the second complementary display unit is mounted on the side of the carry basket is new matter. Likewise, the recitation in claim 24 that a second integral display unit is mounted at an opposite end or side of the carry basket is new matter.

Allowable Subject Matter

1. Claims 1, 7-12 and 16-19 are allowed.

2. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

Art Unit: 3611
